STUDENTS

Access ePay as an Authorized User

This job aid provides instructions on how Third-party Authorized Users can access the student's account in ePay. Students must grant access to a third party (parents, guardians, etc.) to allow them to view the student account in ePay and make payments on the student's behalf.

SET UP AUTHORIZED USER PROFILE

<u>Note</u>: ePay is external to BisonHub and is used to make payments and establish payment plans. Third Party Authorized User access must also be established by the student in BisonHub to allow the third-party to view the full transaction history and statements. Please review the **Third-Party Access in BisonHub** job aid for more information.

From the Menu on the Home page:

- 1. Select the Financials Hub.
- 2. In Suggested Links select Make A Payment. This will link to the ePay system outside of BisonHub. Sign into ePay using the credentials provided.
- 3. From the Authorized Users Profile Setup page:

| Authorized User Profi | le Setup | | |
|--|--------------------------------------|-------------|---------------|
| Reset password. Please enter a new pass | word. | | |
| | | * Indicates | required fiel |
| Full name:" | | | |
| Minimum 12 character length and must contain the following: • 1 upper case letter • 1 lower case letter • 1 number • 1 number • 1 of the following exclaid characters: • 1*98&&(*+,√,<=>100(\)^_(0) | New password:* Confirm password:* | | |
